### ANNUAL REPORT — JANUARY 21-22-23, 2006

The Theme is:

## “Roe v. Wade Violates the American Way”

“The State or a Person Can Never Justify the Intentional Killing of an Innocent Born or Preborn Human in Existence at Fertilization. No Exception! No Compromise!”

*March for Life Fund* selected this Theme and the sub-Theme to respond to the current discussion of *Roe v. Wade* arising from nominations of new Supreme Court justices. We heard public officials' statements to the effect that they demanded a right of privacy to control human life at its beginning and at its end. From that attitude, America has suffered 33 years of gory *Roe v. Wade* discrimination against the whole class of preborn humans with surgical and drug-induced abortions. And, the attitude may give rise to more violations of sanctity of human life, such as the death of Terri Schiavo, fetal stem cell research, human cloning, and more. The intentional killing of 4,000 preborns each day seems to be viewed as politically correct. Media do not report the evil.

Thus, *Roe v. Wade* must not only be overturned but also be replaced by America's affirming that a proborn human in existence at fertilization is a person whose unalienable and paramount right to life is protected by our Constitution.

Let us learn from history. Prolifers must unify on the *Life Principles* and restore prolife culture as correct for America.

Please order your prolife message for the *Annual Report* and ask friends also to order messages. We shall educate about *Life Principles* and uncover abortion evils. Our *March for Life Fund 2006 Annual Report* will take our compelling prolife Theme to public officials, media, feminists/abortionists, schools, churches, and throughout our beloved America.
